Timeline current

Currently, there are delays in the implementation of the reform.

Now it has become clear to those responsible in the government that there can be no regulation without a law.

Hmm, what does that mean for us?

The announcement by the former transport minister to bring the regulation into force on 01.01.2027 won't work, because there is no legal basis before 01.07.2027.

So the start of the driving licence reform will be at the earliest on 01.07.2027.
